

*Free me from protection and let me free - H:&&xW:66 cm, closed 23x23 cm - 2014 - one copy.*

This artist book is made of different prints; relief prints, lithography, handmade monochrome colored paper, all reused and made as collages into new images. Folded out, on both sides, you get the whole story, the front and the back in a logical succession. From being protected by the black panthers in the inner page to the utter page where the lady with the bird wants to be free. The house has for many years been my theme, and here the house can be protective but also a hindrance.
