The book is printed on BFK Rives 250 gr. Paper, with different mixed media, such as monochrome print, woodcut, acrylic on print, photo.

The box and cover are handmade by me. The cover is printed in woodcut. The front and back page are printed in one sheet of paper.

This book is a homage to the youth and a memorial to all those who were killed the 22nd of July 2011.

I have chosen the rose, the flower which everybody in Norway carried around in the streets after the massacre, and laid down close to the Utøya, the Parliament building, as well as all over the contry.

I have chosen the orange rose, which color symbolizes; "Our lover conquers everything".
