

*The Future Teller - H:28xW:28x19 cm - lithography - 2002/2014 - one copy.*

This book is made of a lithography, originally made and used from a portfolio of 60 prints and texts (Jon Fosse) *Eit rom-Eit hus* in 2002, see previous homepage. This print is not a part of the edition, but a *les épreuves d'artiste*. There is no text in the book. I want the user to use their own imagination when they open the different spaces, and tell each other stories out of themselves.
